Hello, my name is Heather Jorgensen and I am a New Jersey Licensed Massage Therapist. I completed my licensing at Metro Academy in Allentown Pa .I am a mom to two boys, and enjoy helping to coach their teams and watch them grow. I grew up in South Plainfield, New Jersey but I now live in Washington; with my husband of 11 years.

Prior to becoming a Massage Therapist, I was a High School History teacher for 6 years. After my second son was born, I decided to take a job at a local gym, where I first was introduced to the health and wellness industry. I soon found myself looking for alternative and holistic approaches to treat my son's asthma. After taking him to a wellness chiropractor, I drastically changed the way my family lived.

In the summer of 2015, I took a job as a Chiropractor Assistant and loved being on that side of the industry. Wanting more, I decided to pursue a career in Massage Therapy and began the course at Metro Beauty Academy in early 2016. I love that I can interact with people and help them to feel better one massage at a time.

Along with traditional Swedish massage; which relieves stress and tension to promote relaxation, I am also certified in Pre-Natal Massage and Neuro-Muscular Therapy. I look forward to meeting you and adding massage to your chiropractic care for a whole new level of wellness.
